

JATIN GOLA

+91 7042 83 1500 | jating8040@gmail.com | www.linkedin.com/in/jatin-gola

Aspiring Machine Learning and AI professional with hands-on experience in deep learning, computer vision, and NLP. Proven ability to enhance model accuracy and deploy user-friendly APIs. Dedicated to driving technological advancements and contributing to innovative projects in AI.

EXPERIENCE

Apprenticeship

CSRBOX in Collaboration with IBM

06/2025 - Present

Gained experience in the field Of agentic ai, prompt engineering and Large Language Models including Langraphs, gemini. Utilized automated agentic tools like Relay application.

Apprenticeship

ShapeMySkills Pvt. Ltd.

07/2023 - 08/2023

Successfully completed training in the field of Advance Data Science Using Python.

Placement Coordinator

Institute of Information Technology & Management

10/2023 – 10/2024

Organized recruitment drives, maintained records, facilitated communication, led the team, and received positive feedback.

Graphic Designer

Xperia3d (Formerly Rjwada) | IIT'D

11/2022 – 02/2023

Created digital and print designs, used Adobe Creative Suite, assisted with web and app design and managed multiple projects.

EDUCATION

Bachelors of Computer Applications

(Minor Specialization in Artificial Intelligence)

Institute of Information Technology & Management | New Delhi

2024

Relevant Coursework: Machine Learning, Data Structures, AI Ethics

GPA: 8.35

Higher Secondary

Dwarka International School | New Delhi

2021

Secondary School

Dwarka International School | New Delhi

2019

HARD SKILLS & ABILITIES

- **Programming Languages:** Python
- **Data Science:** Pandas, Scikit-Learn, Predictive Modeling, PowerBI, Tableau
- **Machine Learning:** Pytorch, TensorFlow, Keras
- **Natural Language Processing:** NLTK, SpaCy
- **Tools:** OpenCV, Gradio, Flask, Streamlit

SOFT SKILLS

- Critical Thinking
- Problem Solving
- Interpersonal Skills
- Presentation Skills
- Teamwork & Collaboration

PROJECTS

Age and Gender Detection using OpenCV in Python

- Enhanced model accuracy by 50%, achieving 89% precision in demographic predictions.
- **Tools:** OpenCV, Gradio, Deep Learning

Intrusion Detection System using Machine Learning Algorithms

- Improved accuracy in detecting intrusions using Kaggle dataset.
- **Achievements:** Achieved 95% accuracy using various ML algorithms.
- **Tools:** Python, Scikit-Learn, Data Analysis

Gender Detection using Speech Analysis

- Developed a robust model for classifying gender from voice recordings.
- **Achievements:** Increased personalized user experiences by 40%, improved assistive technology accuracy by 25%.
- **Tools:** Speech Processing, ML Algorithms

Automated Text Summarization

- Developed a text summarization system using T5 transformer and OCR technology.
- Tested on 50 documents, achieving 90% precision in text extraction and summarization.
- **Tools:** T5 Transformer, OCR, Gradio.

LICENCES & CERTIFICATIONS

- | | |
|-------------------------------|--------------------------------------|
| • Advance Learning Algorithms | • Power BI Job Simulation |
| • Supervised Machine Learning | • Step into RPA |
| • Generative AI Fundamentals | • Advance Data Sciences using Python |
| • Developer Job Simulation | |

PUBLICATIONS

- Enhancing IoT Security and Efficiency: The Synergistic Integration of 5G Technology and Blockchain
(Published in ICACIA 2024)
- Semantics Aware Malware Detection: A Survey
(Published in ICACIA 2024)
- An integrated approach for image text extraction and summarization using Easyocr and Simple T5 algorithm
(Published in ICSCPS 2024)

ACTIVITIES & INTERESTS

- | | |
|------------------------------------|------------------|
| • Exploring new Advancements in AI | • Media Creation |
| • Designing | • Traveling |

LANGUAGES

- English and Hindi
